Sampling of Current Federal Solicitations

BAA0801TYN-LGCB

Agency: Air Force Research Laboratory, AFRL/RXQ, Airbase Technologies Division

Type: Special Notice

Due Date: The solicitation period is approximately one year (Date issued-**30 Sep 2008**).

AFRL/RXQ is soliciting white papers (technical and cost proposals if accepted) in the following research areas (in whole or part):

Fire Fighting - Develop agents, systems, equipment and hardware for use in aircraft firefighting and rescue operations, airbase structural firefighting, weapons systems firefighting, hazardous materials incidents, and improved firefighter training. Develop DoD firefighting systems such as munitions protection and explosion mitigation. Specific areas of interest include development of environmentally compatible, operational and cost effective fire extinguishing agents, aircraft rescue and firefighting vehicles/systems, fire detection/suppression systems, specialized rescue and personnel protective equipment, and training technologies. The objective is to enhance airbase and other DoD firefighting safety programs and training capabilities that significantly reduce fire extinguishing times, extract victims, and minimize damage/casualties.

GS-05P-08-SV-P-0010 Mechanical Preventive Maintenance & Minor Repair Services,
Alpena, Michigan

Agency: General Services Administration

Type: Presolicitation notice

Due Date: Dec. 17, 2007

Website: <http://www.fbo.gov/spg/GSA/PBS/5PT3/GS%2D05P%2D08%2DSV%2DP%2D0010/SynopsisP.html>

The Contractor shall provide all management, labor, materials, minor repair parts, tools, and equipment, and shall plan, schedule, coordinate and ensure effective and economical completion of all work and services to provide preventive maintenance, minor repairs, and service calls to the Federal Building, Alpena, Michigan. The Contractor shall be responsible for performing all work under this contract in accordance with all Federal, State, County, and City laws, and codes, and follow the more stringent of them. The term of the contract is a 12 month base with four (4) one-year options. The anticipated start date is February 1, 2008. This acquisition is a negotiated procurement and is open to all small business concerns. NAICS is 561210 and the size standard is \$32.5 million. This is a negotiated firm fixed price acquisition. The offeror will be required to submit a base bid and pricing for the four (4) option periods. Proposals will be evaluated on price and price related factors. The solicitation will be issued on or about November 29, 2007; the actual date for receipt of proposals will be stated in the solicitation. The solicitation will be available through the Federal Technical Data Solution (FedTeDS) at <https://www.FedTeDs.gov>. All interested vendors must register with FedTeDS by providing the following information: (1) Central Contractor Registration (CCR) Marketing Partner Identification Number (MPIN)(2) DUNS number or CAGE code (3)Telephone number and (4) E-mail address. Offerors will be responsible for downloading the solicitation and for monitoring FedBizOpps and FedTeDS for amendments and/or additional information. All responsible small business sources may submit a proposal which shall be considered by the agency.

M6785408R6005 M1A1 Upgraded External Auxiliary Power Unit

Agency: Marine Corps Systems Command

Type: Presolicitation Notice

Due Date: Dec. 14, 2007

Website: <http://www.fbo.gov/spg/DON/USMC/M67854/M6785408R6005/SynopsisP.htm>
1

The Marine Corps Systems Command, Quantico, VA has a requirement to procure an Upgraded External Auxiliary Power Unit for the United States Marine Corps (USMC) M1A1 Tank. This is a synopsis only. Solicitation Number M67854-08-R-6005 will be issued on or about 11 January 2008. The solicitation document will include the provisions and clauses in effect through Federal Acquisition Circular 97-27 and Defense Acquisition Circular 91-13. This action will not be set aside. This will be a full and open competition. The SOW includes requirements for configuration management, manufacture, test, and delivery of the Upgraded External Auxiliary Power Unit. The contractor(s) shall ensure that the delivered Upgraded External Auxiliary Power Unit conforms to the requirements of the USMC M1A1 Upgraded External Auxiliary Power Unit Performance Specification. The offeror's design shall be an off the shelf system that has been subjected to qualification testing to the USMC M1A1 requirements. The USMC procurement objective for this effort is 500 Upgraded External Auxiliary Power Unit. Additionally, there shall be procurement options for the US Army. The Upgraded External Auxiliary Power Unit shall be procured over several years; the procurement buys in the out years will be through the exercise of option CLINs on the base contract. The contractor shall be responsible for performing the examinations, demonstrations, inspections, and tests necessary to demonstrate compliance with all requirements of the Upgraded External Auxiliary Power Unit specification. Upon completion of any testing, the contractor shall prepare and submit a Test Report, which shall reflect the results and conclusions of the testing. The report shall address all testing performed and all failures encountered. All conclusions shall be clearly identified as such and shall be appropriately segregated from the objective results. During testing, the contractor shall prepare and submit a Failed Item Analysis Report (FIAR) covering each failure, as part of the Test Report. The contractor shall prepare and submit a FIAR for each occurrence of a failure (i.e. the same failure of the same parameter on more than one sample during a test shall require a separate FIAR for each failed sample). The contractor shall ensure that the Upgraded External Auxiliary Power Unit presents no uncontrolled safety hazards to operators or maintainers. The contractor shall perform an assessment of the system and document the results in a Safety Assessment Report. All interested and responsible parties shall refer to the Marine Corps Systems Command website at www.marcorsyscom.usmc.mil, Business With Syscom, Business Opportunities in order to obtain a copy of the solicitation about 14 December 2007. There will be no written solicitations available. The MARCORSYSCOM point of contact is Mary Lee Schuck, Contracting Officer and may be contacted at email: maryleeschuck@usmc.mil. NO PHONE CALLS WILL BE ACCEPTED. Point of Contact: Mary Lee Schuck 703-432-4072
